BEARINGS

Ball Casters

Hudson Bearings' new line of Ball Casters combine the low-profile, omni-directional, and load-capacity benefits of ball transfers with the utility of traditional casters.

Lockable Ball Casters

Lockable feature available on most ball casters.

Available Mounting Options

Caster Stem

Threaded Stem

Flange Mount

Press Fit

Flange Mount Flying Saucer

All mounting options available with the following main ball materials

Phenolic

Nylon

Delrin

Carbon Steel

Stainless Steel

Hudson Ball Caster Applications

Retail Displays • Point of Sale Displays • Hospitality • Commercial Furniture
Office Furniture • Warehouse Racking • Restaurant Equipment

Low profile design allows for more shelves.

Stainless steel options allow for use in wash-down environment.

Works on carpet and hard surfaces for furniture.

Flange mounted ball transfers work on corrugated point-of-sale displays.
